CORONER'S JURY HEARS EVIDENCE

serts he fired the fatal shot in self-defense.

Two witnesses were examined by the coroner's jury yesterday afternoon. Henry Brogan, colored, testified he had gone into the saloon where the shooting occurred just prior to the time the shot was fired. He had a drink with a friend and then started for his room in the American rooming house, intending to leave the place by the rear door. About this time, Bogan stated, Anderson entered the saloon and accosted Smith, inviting him to step outside. The men had barely crossed the threshold when Brogan heard a shot, and, stepping to the door, was horriffed to find Smith lying in a pool of blood. He looked down the alley and saw Anderson running south. Smith's body was lying in the alley, with the head resting upon the curb. Brogan says he re-entered the restaurant at the rear of the saloon, procured a spoon and tried to force water down Smith's throat, but the man died before he could be of any assistance to

Chambers was guilty of an offense, but that offense was not malfeasance in office, as the term is legally construed, and therefore Chambers would be eligible to hold other public offices.

DIGGING FOUNDATION PITS

Workmen Begin Preliminary Excavations for New Structure at Fourth

South and Main. That the immediate construction of the million-dollar Newhouse hotel is planned was evidenced yesterday by the presence million-dollar Newhonse hotel is planned was evidenced yesterday by the presence of a large crew of men on the site of the new building at Fourth South and Main streets. The men are digging test pits for the foundations of the hotel. The testing is being done in order that the contractors who bid on the construction of the building may get the information relative to the depth of the foundation walls necessary to an intelligent bid on the work. The ground is located on the old bed of City creek, with a surface stratum of sand. The foundations will be laid on a solid clay bed, and figures on the depth of the sand are necessary in order to determine how deep the concrete must go. This testing is significant in that it probably portends the immediate consideration of bids for the erection of the new hotel. Lafayette Hauchett said last evening that the testing was made primarily to get the information on the depth to which the proposed foundations must go. He declined to say that this testing meant the commencement of work on the actual construction of the new hotel, but intimated that it indicated progress in that direction.

The financial end of the enterprise has been arranged and the actual construction of the building will probably-begin within a few weeks.

Conductor Stevenson met his death under a pile of rock which was thrown upon him when the cars jumped the track. It is estimated that during the four days of the fair more than 30,000 persons the responsibility for the man's death. The railway company will also investigate.

It is the stomach that supplies nourishing blood to the muscles, the nerves, and skin. If the stomach is healthy,

sorbed by the blood. If it is not healthy, the food will ferment, and undigested. the food will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes. If you suffer from nervousness, sick headache, belching of gas, sour taste in the mouth, heaviness after eating, or any other miserable stomach disturb ance, you need Mi-o-na, the mighty cure for indigestion, and the sooner get it the quicker you will be healthier and happier.

It will relieve any distressed stomach condition almost immediately. It will cure if used according to directions. F. C. Schramm sells it for 50 cents a large box, and he thinks enough of it to guarantee it to cure indigestion, sea or car sickness, vomiting of pregnancy, or money back.

There isn't now, there never was, there probably never will be, such a joyous remedy for constipation as Booth's Laxative Pills. 25 cents a box at F. C. Schramm's.

SOCIETY OF UTAH ARTISTS

Election of officers for the newly organized Society of Utah Artists was held last evening and the following were named: M. M. Young, president; L. G. Richards, vice president; G. Wesley Browning, secretary and treasurer; J. Leo Fairbanks, custodian.

Resolutions of appreciation were tendered to J. B. Fairbanks, through whose efforts an appropriation was secured from the last legislature for the purpose of promoting the interests of art in Utah. Utah is one of the few states in the union to give recognition to art, though President Roosevelt in December last suggested the appointment of a national commission for the purpose of supervising art work, the erection of public buildings, their decoration, etc.

An effort is also to be made to have

An effort is also to be made to have Utah recognized at the coming exposition in Seattle in matters of art, and local enthusiasts are trying to get together an art collection to exhibit. J. B. Fairbanks recently donated the nucleus of the col-

lection in the shape of a copy of Rubens art gem "The Holy Family."
